DEFENSE SURE BROUWER WILL BE ACQUITTED

RENEWED CONFIDENCE SHOWN BY ATTORNEYS IN TOMS RIVER TRIAL.

DOCTOR'S EYES ON THE NURSE

Miss Dudley Said She Refused to Do His Bidding in Treating Mrs. Brouwer.

Toms River, N. J., Oct. 11—Renewed confidence in the ultimate acquittal of the defendant was manifested by his attorneys when the trial of Dr. Frank Brouwer, on the charge of murdering his wife, was resumed today. Brouwer's lawyers feel that they scored heavily on the prosecution yesterday and they believe that in view of the turn the trial has taken the case of the state will break down utterly.

Dr. H. H. Cate, who has been been widely heralded as a witness who would give damaging testimony against Brouwer, tending to show he was tricked into signing the certificate giving Bright's disease as the cause of death, helped out the defense wonderfully by declaring he signed the certificate voluntarily when presented by the undertaker, on his own knowledge of the case.

Another of the prosecution's star witnesses was badly confused by Mr. Wilson of Brouwer's counsel on cross examination.

An admission wrung from her was that two peptonizing powders which she had taken away from Brouwer's house when she left, because she thought they contained evidences of the doctor's alleged guilt had been proved by analysis to contain no poison. The prosecution now is devoting its energies to bringing out the evidence as to Mrs. Brouwer's symptoms during her illness as the basis of contention that she was poisoned.

Toms River, N. J., Oct. 11.—The testimony of two state's witnesses at the trial of Dr. Frank Brouwer for the murder of his wife was attacked in the cross-examination.

Miss Una Dudley, nurse, testified that the sick woman had complained of the bitter taste of the peptonized milk prepared for her by the defendant. Attorney Wilson, for the defense drew from the witness the statement that she was aware, when she testified, that the peptonized powders often had a bitter taste when they were allowed to stand for a considerable time.

Miss May Lippincott, who cared for Mrs. Brouwer, testified that she had seen Dr. Brouwer take two powders from a section of his medicine case in which he was accustomed to keep strychnine and prepare a hypodermic injection, which he asked her to administer to his wife. On cross-examination Miss Lippincott said she could not swear that the tablets were taken from the strychnine section.

Dr. Cate, who signed the death certificate, denied that he and Dr Brouwer had acted in collusion with the certificate, and said that the defendant did not even know that the witness had made out a certificate until it was handed to him.

After having described the symptoms of Mrs. Brouwer's sickness, Miss Dudley was asked about a conversation between Dr. Brouwer and his wife concerning Miss McClellahan, the governess of Dr. Brouwer's children Counsel for Dr. Brouwer objected, and the evidence was excluded.

"Had you a suspicion that Mrs Brouwer was being poisoned by her husband?"

"I suspected something."

"Did you suspect that Mrs. Brouwer was being murdered?"

"No, I did not."

The witness went on to say that she thought Dr. Brouwer was giving his wife something to bring on convulsions.

"I suspected that he was trying to prolong his wife's illness," the witness added.

Miss Alice Horlock, the last nurse who attended Mrs. Brouwer, testified that nothing occurred while she was caring for the patient to cause her to suspect Dr. Brouwer.

Dr. Brouwer never took his eye off Miss Dudley from the time she went to the witness chair until she left it. His tall, heavy figure at times twitched nervously, but he never lost the remarkable self-control he has displayed since his arrest.

The lawyers for the defense have not yet publicly indicated what their line of defense will be. It is expected, however, that they will endeavor to show that ptomaine poison caused Mrs. Brouwer's death and that they will call experts to testify that ptomaine poisoning exhibits the same symptoms as arsenic.

VICE PRESIDENT'S SON ELOPES

PITTSBURG, Oct. 11.—Frederick Fairbanks, son of the vice president of the United States, and Miss Nellie Scott, daughter of Mrs. James Scott, an accomplished east end young woman, eloped and were married at Steubenville yesterday evening by Rev. Mr. Brodie. Objections on the part of Fairbanks parents are said to have been the cause of the elopement. Not for years has such a sensation been created in society circles as was caused this morning when Mrs. Scott confided the knowledge of the elopement to some of her friends.

GOMPERS FAVORS ASHBROOK AND CONDEMNS CONGRESSMAN SMYSER

The Coshocton Labor and Trades Council is in receipt of a second letter from Samuel Gompers in which he comes out flatly against Smyser and urges the labor unions to do all in their power to assist in his defeat. The letter is as follows:

Dear Sir and Brothers:

Your joint communication of Sept. 20th to hand and contents noted.

In reply would say, in your letter and with the enclosures it seems to me that there should be no question in the minds of the members of organized labor and their friends in Ohio, as to what their duties should be. In my former letter I submitted to you the labor record of Congressman Smyser of your district, which speaks for itself.

Up to the present time, Congressman Smyser has not replied to the copies of Labor's Bill of Grievances that we submitted to him at different times. Does not his ignoring this communication entirely, and refusing to place himself on record show that if he is not hostile to labor and its interests, that he is at least indifferent?

The record of Mr. Winans, the legislative representative of the Brotherhood of Railroad Trainmen in the Ohio Legislature, as to the attitude of Mr. Ashbrook is clear and should be convincing to our friends. That record shows that every bill that was introduced in the Ohio Legislature, while Mr. Ashbrook was a member was voted for by him. In placing both records together, it seems to me that our friends in this congressional district should have no hesitancy at all in giving all the assistance in their power to further the candidacy of Mr. Ashbrook.

In any event, Mr. Smyser must of necessity be counted in the category of those who have proven themselves unworthy of the support of labor and the common people.

Let us administer a stinging rebuke to him and such as he and stand by our friends.

Asking you to convey my kindest regards and best wishes for success to the members of organized labor and to all our friends, I am,

Fraternally yours,
SAMUEL GOMPERS,
President American Federation of Labor.

IDAHO CASES IN SUPREME COURT

Washington, Oct. 11.—The supreme court of the United States heard arguments in the cases of Charles B. Moyer, W. D. Haywood and George A. Pettibone, officers and members of the Western Federation of Miners who are in prison in Canon county, Idaho, under a charge of murdering former Governor Steunenberg of that state. The case comes to this court on an appeal from the decision of the Idaho federal court refusing to grant writs of habeas corpus. The principal point in the controversy was the method by which the Idaho authorities secured jurisdiction over the men, who are residents of Colorado. It was alleged on behalf of Moyer and his associates that they were kidnaped in pursuance of a conspiracy to which the governor of Colorado and the Idaho authorities were parties, and hence that jurisdiction was acquired by fraud.

SLEW TEACHER AT CLEVELAND

YOUNG MAN THWARTED IN LOVE COMMITS DRAMATIC CRIME IN PUBLIC SCHOOL.

Later Harry Smith Ended His Life When Cornered—Miss Mary Shepard Shot.

Cleveland, O., Oct. 11.—In the presence of 60 pupils of the South Euclid school Harry Smith, 25, shot to death Miss Mary Shepard, 22, a teacher. When cornered behind the barn in the rear of his home in Warrensville, two hours later, Smith shot himself through the head, dying instantly. Disappointment in love is believed to have been the motive for the murder. Smith, who was a fourth cousin to Miss Shepard, had wooed her for some time, and recently was rejected. He brooded over the unhappy ending of his courtship and, first resigning his position, bought a revolver and went to the South Euclid school. Miss Shepard responded to his knock at the door. He walked in and for a few moments talked to her in the hall. Suddenly he whipped out his revolver, placed it against her head and fired twice, both bullets crashing through her brain. Panic spread among the pupils, who rushed screaming from the building. Several girls fainted. Smith leisurely walked away and boarded a car for Warrensville. The news of the crime spread like wildfire and in less than half an hour a posse was in full pursuit. The identity of the murderer was quickly established. Chief of Police Kohler was notified and he dispatched four policemen to Smith's home in Warrensville, a short distance from the school. Reaching home but a few minutes before the arrival of the police, Smith told his father of the crime. When his pursuers came in sight the young man ran from the house to the rear of the barn. When the posse got within a few feet of him he blew out his brains.

SYMPATHIZERS STAY AT HOME

Proposed Visit to Russia Caused a Storm of Indignation.

MIGHT HAVE LED TO VIOLENCE

Presentation of Memorial of Sympathy With the Douma Would Have Been Regarded In Russia as an Unwarranted Act—W. T. Stead Urged Deputation to Abandon Its Plan.

London, Oct. 11.—The proposed visit of a British deputation to St. Petersburg for the purpose of presenting an address of sympathy to the late parliament aroused a storm of indignation and protest both here and in St. Petersburg, and strong influences were brought to bear to induce the deputation to abandon its visit on the ground that the presentation of a memorial in sympathy with the late parliament would be an unwarranted act of interference calculated to lead to violence. The deputation included half a dozen members of the house of commons and social reformers and it planned to take an address signed by 300 persons, including members of the house of lords and house of commons, numerous representatives of the clergy and persons prominent in literature. Reports received here represent the Russian government as annoyed and show the threatening attitude of the Russian elements friendly to the old regime. W. T. Stead issued an appeal that the delegation stay at home, as the visit would result in violence and political complications.

Although the British government did not give the slightest countenance to the movement, official St. Petersburg recalls Premier Bannerman's tribute to the late parliament and construed the movement as representing British and official opinion.

The committee in charge of arrangements for the visit decided to abandon the visit to Moscow and to await further advices from the Anglo-Russian friendship committee in St. Petersburg before deciding finally. Although the feeling of individual members of the committee was strongly in favor of proceeding with the visit, it is certain to be abandoned.

St. Petersburg, Oct. 11.—What is described here as a fizzle of the much-heralded visit to Moscow and St. Petersburg of a British deputation to present a memorial of sympathy to the dissolved parliament is another blow to the Constitutional Democrats, who were attaching a reception to the deputation as a telling feature of the campaign. This proposed visit was expressly embarrassing to the British ambassador, Sir Arthur Nicholson, in view of the recent threatening tension between Russia and Great Britain. Pressure was brought in London to stop the movement, and it was decided not to receive the deputation officially at the embassy here. This desire is thought to have inspired the interview given out by the British consul at Moscow, who declared that the members of the deputation were not known and that the proposed visit would be in bad taste.

AGENT GONE, BANK CLOSED

Heavy Failure In New York Follows big Defalcation.

FIRM HAD CUBAN HOLDINGS

Assets May Be Sufficient to Cover Losses—Missing Agent Said to Have Left Havana With His Family on His Own Steamer For Parts Unknown—Millions Involved.

New York, Oct. 11.—Millions are involved in the failure of the well known banking and mercantile firm of J. M. Ceballos & Company. The liabilities are said to be between $3,000,000 and $4,000,000. This concern was established about 50 years ago and has large interests in Cuba, chiefly in the development of railroads and sugar plantations. It operates a line of steamers between New York and Spanish ports and has connections in Spain, European centers and Spanish-American cities.

The assignee's statement declares the failure was due to the defalcation and absconding of Manuel Silveira of Silveira & Company, Havana agents of the New York company. Silveira's defalcation is alleged to amount to about $1,000,000. He sailed from Havana Oct. 2, ostensibly to consult here with the members of J. M. Ceballos & Company, but has not reached this city. Counsel for the assignee said that Silveira had left on his own steamer, the Carmelina, for parts unknown, accompanied by his wife and children, and that every effort was being made to locate him.

The members of the firm of J. M. Ceballos & Company are J. M. Ceballos, John S. Fiske and Anderson C. Wilson. The assignee is William V. Rowe, an attorney. Mr. Rowe said that the assets of the firm are of a substantial character, but from a hasty examination it was manifest that they would require careful husbanding. It was stated unofficially that there is ground to hope that the assets will be sufficient to cover the losses and that the firm may be enabled to resume.

CRUCIAL POINT IN PROSECUTION OF STANDARD OIL

STATE TODAY GETS AMENDED CHARTER BEFORE THE JURY.

POINT STOUTLY CONTESTED

The New Jersey Corporation is But a Holding Corporation Declares the Prosecutor.

Findlay, Oct. 11—When court convened this morning Virgil P. Kline, for the defense resumed his argument against the admissibility of the New Jersey amended charter of the Standard. The jury was excluded from the court room. Attorney General Ellis replied to Kline arguing that the certificate from the secretary of state as to the correctness of the record was a sufficient compliance with the laws. If the state can secure the admission of the New Jersey amended charter it will follow with the tax returns made to the county. By these the state expects to bring its case within the statutory time under prosecution. These tax returns will show, it is stated, that they come from 26 Broadway and are made for all the companies by one man.

Judge Banker ruled against the Standard on the admissibility of New Jersey evidence and a certified copy will be presented to the jury. This is another victory for the state.

J. H. Scott, purchasing agent of the Buckeye Pipe Line company, and M. C. Shafer, oil inspector of this district, have been subpoenaed by the state. Shafer is summoned to show a combination in business between the Solar refinery and the Union Tank Line company. The jury was not called in until nearly 11 o'clock today. Attorney Phelps then read the records of the New Jersey corporation.

Findlay, O., Oct. 11—The crucial point in the state's prosecution of the Standard Oil has arrived. Unless the state can get the amended charter of the Standard Oil company, of New Jersey, before the jury an important link in the chain of evidence will be missing.

Standard Oil attorneys have centered their entire attention on its admissibility. The question was argued for an hour Wednesday afternoon. It was argued again this morning. By this amended charter the state seeks to prove that after the Supreme court of Ohio ousted the Standard, the capital stock and directors of New Jersey corporation were increased, the directors from three to nine. The six new directors were the same men who who were appointed liquidating trustees of the Standard when the court ousted it from the state. The state claims there is no real difference in fact between New Jersey Standard Oil and the Standard Oil trust of Ohio.

In combatting the charter's admissibility the defense says that constitutionally it can not be admitted. In reply to this the state says that Congress can not prescribe rules of evidence for a state court.

The second objection raised by the defense is that the Standard Oil trust of Ohio, is specifically described in the David information and that organization which the state now endeavors to describe is not the same as described in the information.

The state in answer says that while the method of business might have been changed the results are the same allowed under the direction of the original organizers of the company. The New Jersey corporation, the state says, is but a holding corporation, exchanging not selling stock, that through the operation of this company the Ohio Supreme court mandate is defied.

When the Rockefeller evidence was finished Mrs. Ida M. Butts was called to the stand to testify. Mrs. Butts said she is the stepdaughter of the late George M. Rice, an independent oil refiner of Marietta, O. She acted as Mr. Rice's private secretary and the executrix of his estate. She produced the certificates of original "trust" stock owned by Mr. Rice, the certificates of "legal title" into which these were later transferred and scrip showing title to fractional shares of stock in all of the original 20 subsidiary companies. The text of these certificates was read into the record and Mrs. Butts excused, the defense not caring to cross-examine her.

The prosecution put in evidence certified copy of the record in the office of the secretary of state of New Jersey showing that in 1898 the Standard Oil company of that state changed its corporate existence by increasing the number of its directors from four to nine. It was argued by the defense that this certificate was unauthenticated and incompetent. Judge Banker reserved his ruling on this point. The objection by the defense to the evidence was mainly on the ground that

PILES CURED QUICKLY AT HOME

WITHOUT PAIN, CUTTING OR SURGERY—INSTANT RELIEF.

We Prove It—Sample Package Free.

Seven people out of ten are said to have Piles. Not one man in a million need have them and we are proving it every day at our own expense. We send a sample package of the wonderful Pyramid Pile Cure to any person absolutely free.

We don't do this as a matter of sentiment or philanthropy, but because it is to our interest to do so. We know that the sufferer from piles, tormented and driven almost crazy by this wretched trouble, will find such immediate relief that he will go at once to his druggist and buy a box and get well.

We know that we have got the greatest remedy in the world for piles, and we are ready and willing to stand or fall by the verdict of those who make the trial. We have been doing this for some years now and we never yet have had occasion to regret it

And the remedy at the drug store is exactly the same as the sample we send out. As, for instance, here is a man who got such immediate relief from the sample that he at once bought a box. Was it just the same? Undoubtedly, since it cured him after all sorts and kinds of things had failed.

Here is a sample of the kind of letters we get every day and we don't have to ask for them:

Received your samples of Pile Cure and have given it a fair trial and it has proven the best I ever tried and effected a complete cure. I can recommend you highly in this vicinity. Have used your sample and one box and it has been a complete cure. It has been worth $100 to me.

AMUSEMENTS

GOOD ONE TONIGHT.

The Ohio State Journal the other morning after the appearance of "The Greater Love" in Columbus said:

If there were an endowed theater in this country, "The Greater Love" is such a play as it should acquire, and present regularly to the public at a very low price of admission that young and old, but particularly the young of this land, might have its sweet and helpful influence to aid in the purification of the lighter ideas and ideals of art and the sentiment of pure devotion to the higher things of life. As given at the Shubert theater last evening the performance was a thing to be admired, and it was admired and enjoyed by a large and representative audience, but to the

thoughtful, admiration for the performance was lost in admiration for the play.

The Journal's critic went on in this strain for a half column speaking in highly complimentary terms of the production, which will be seen tonight at the Auditorium.

One of the most magnificent productions of recent years in the way of dramatic offerings is that of "The Greater Love" which comes to the Auditorium tonight with a powerful cast headed by Aubrey Boucicault This play comes to this city from a successful run at the Madison Square theater, New York. The scenes of the play are laid in Germany in the latter part of the 18th century, and deal with certain romantic incidents in the life of Mozart, the great composer. From the very start of the play until the final curtain there is not a dull moment. Operatic vocalists also render selections from Mozart's operas.

BUSTER BROWN.

The charm of Buster Brown which will be presented at the Auditorium Saturday afternoon and evening is to be found in its bright lines, its catchy songs, its clever dances and the complete absence of anything even approaching the coarse or vulgar. These are the reasons for its immense popularity with all classes of theater goers. In it will be found no rusty humor, no old songs, no wornout costumes, and no frayed scenery. Everything is absolutely new.

ALL NEXT WEEK.

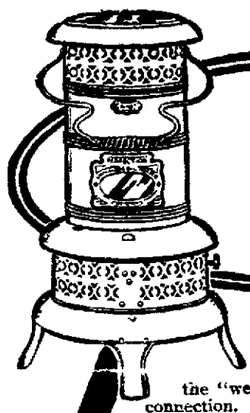

The Chicago Stock company will be at the Auditorium all next week. The prices will be 10, 20, 30 and 50 cents

GREAT SOUTHERN THEATER.

The people of this section of the state will have the exceptional opportunity of witnessing one of the highest grade and most entertaining offerings that recent years have brought forth on the stage, W. H Crane; Ellis Jeffrys and an international all star cast in Oliver Goldsmith's immortal comedy 'She Stoops to Conquer." A performance of this will be given at the Great Southern theater, Columbus, on Tuesday night October 16. The occasion will be the most important one that has appeared, as far as the stage is concerned, for the public in this section for many years. In addition to appealing strongly to the regular theater public, it will doubtless also draw the patronage of all persons engaged in educational work and pupils at educational institutions, as well as all interested in literature. This is true because "She Stoops to Conquer" has been accorded such a high place in English literature in all of the educational institutions. As far as the stage representation is concerned, it possesses the additional advantages over all other literary creations of that period of possessing no antiquated forms or expressions that would detract from a ready appreciation of its merit during a brisk stage performance.

On Saturday, October 30, "Babes in Toyland," one of the most successful modern musical comedies will be given at the Great Southern, Columbus.

"I have yet to see," writes Consul Halstead from Birmingham, "a house in England equipped with window and door screens, such as make life endurable in the United States in the summer months. There are, however, a very few mosquito bars, made of cotton netting, such as were so common in America a quarter of a century ago, and were later displaced by wire screens."

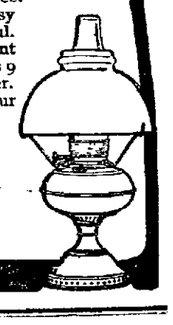

Does What Other Stoves Fail to Do

In almost every house there is a room that the heat from the other stoves or furnace fails to reach. It may be a room on the "weather" side, or one having no heat connection. It may be a cold hallway. No matter in what part of the house—whether room or hallway—it can soon be made snug and cozy with a

PURCHASED

The Poison With Which His Sweetheart Killed Herself and is Now Charged With Murder.

Deshler, O., Oct. 11—Orsen Broka a young farmer, has been arrested by Sheriff John, of Napoleon, on a warrant charging him with murder in the first degree.

Miss Jennie Dicker, said to be Broka's sweetheart, took a quantity of poison a week ago and died five days later. The warrant was sworn out by John Miller, brother-in-law of the dead girl, who alleges that Broka bought the arsenic for the girl with the knowledge that she would attempt self destruction.

The young man was given a hearing before Squire Mulcahey and was held to the grand jury under bond of $2,000, which his father furnished. The charge of murder was not changed.

The trouble is said to have arisen over the objections of the parents of the couple to the match. The evidence showed that young Broka purchased the poison.

RACIAL ISSUE.

Hoke Smith's Views Do Not Coincide With Opinions of Negroes.

Lagrange, Ga., Oct. 11.—At the Georgia homecoming exercises here Governor-elect Hoke Smith delivered an address on the race question in the south, in which he said that the fourteenth amendment to the constitution hinders the most intelligent mode of handling the subject. "Our national government," Governor-elect Smith said, "has always legislated for the Indians, placing around them restrictions entirely different from those applied to white men. But for the fourteenth amendment to the constitution, we should follow the same plan in Georgia with reference to the negroes. The white man must accept full responsibility and control of the situation. This is the white man's country, and it is the white man's burden. Kindly but firmly the large majority of negroes must be supervised and directed by the white man. The fact should be kept in mind that a very large number of negroes are irresponsible and when left in idleness are prone to crime. We must exhaust all legal means to save negroes from idleness." He advocated stricter vagrancy laws and arrest of loafing wandering negroes as probable criminals, also a change in the system of educating negroes.

Why Orpheum is Orphium.

Considerable interest is being manifested by the patrons of the new Orphium theater in the moving pictures given as a part of every performance. The machine, which is a costly one, is run by Mr. Harry Eldon, the house electrician, and the film run this week is especially entertaining, being the tale of the life of an American cowboy and experiences with the Indians. There has been some discussion about the spelling of the word "Orphium" but this is explained by the fact that the name spelled with an "e" is copyrighted by a Western vaudeville circuit and in order to escape infringement on the copyright, the name is spelled here with an "i".

Pataskala, O., Oct. 11—There was a preliminary meeting of parties interested in the proposed Mutual Telephone company in Pataskala Saturday. A temporary organization was effected by electing J. O. Pryor chairman, and R. Conine secretary. A committee was appointed to draft bylaws, consisting of W. H. Montgomery, S. J. Peters and F. B. Headley. Another meeting will be held at the same place Saturday, October 13, at 1 p. m., when it is proposed to organize permanently. The farmers in the vicinity mean business. Many telephone patrons in town are with them.

REAL HAVANA FOR FIVE CENTS.

Collins & Son at Last Find a Nickel Cigar Worth Smoking.

When Collins & Son, who probably have the largest sale for high grade cigars of any dealer in Newark, heard that a long Havana filler cigar was being retailed for 5 cents, they were naturally incredulous. As they wanted to give their customers the best cigars for the least money they got a sample box of the Wadsworth Bros.' Chicos.

The samples were all right and they ordered a trial 1,000 to see how they would please their trade. The result was wonderful, as men who had been buying ten and fifteen cent cigars said they preferred the Chicos. It is a good and satisfactory smoke with a clear Havana aroma.

Try a Chico today and you will enjoy it if you like a good cigar.

TAYLOR HALL, OCT. 22.

The Silent Circle of The King's Daughters has engaged Mr. F. L. Garrity and the Methropolitan company for an entertainment to be given in Taylor Hall on Monday evening, October 22.

The authorities at Washington hydrographic bureau have endeavored to ascertain the size of the Atlantic waves. From careful observations they learn that in height the waves usually average about 30 feet, but in rough weather they attain from 40 to 48 feet. In storms they are often from 500 to 600 feet long, and continue to move about 10 or 11 seconds, while the longest yet known measured half a mile and did not exhaust itself in 23 seconds.

"The Republicans failing to nominate a candidate known to stand for high moral ideas, can expect little else than defeat at the polls this fall. The promise to secure appropriations for a few public buildings will not bolster up the intemperance and immorality of any candidate."—Wooster Herald.

THE NEW FORCE IN NATIONAL POLITICS

Organized Labor Taking Stand in Support of Friends and Against Candidates Opposed to Its Measures.

The labor unions have at last become a political force to be reckoned with in many of the states. The American Federation of Labor has issued a campaign book explaining its attitude, and urging all workingmen to take part in politics. It advises that wherever it is apparent that an independent labor candidate cannot be elected, the workingmen should endorse and support candidates of the minority, but where there is a chance to elect a labor candidate, one should be nominated and supported. The movement was the result of the manner in which the petitions of the workingmen have been despised by the Republican Congress. It is likely to produce startling results at the coming election. Congressman Littlefield of Maine, with a majority of 7000 behind him, barely escaped defeat, being elected by a majority of less than 1000.

In our own congressional district organized labor, through its officers, has been investigating the labor records of the two candidates, and in Coshocton the Trades Council took action on these records. The facts have been widely published, showing that on the labor records of the congressional candidates the Coshocton Trades Council endorsed Ashbrook and condemned Smyser.

And now comes another letter from Samuel Gompers, president of the Federation of Labor to the Coshocton Trades Council, reiterating and emphasizing his former statement. The letter will be found on the first page of today's Advocate. The labor records of both Ashbrook and Smyser are again recited. As to Congressman Smyser, Mr. Gompers makes this pointed conclusion.

"In any event, Mr. Smyser must of necessity be counted in the category of those who have proven themselves unworthy of the support of labor and the common people.

"Let us administer a stinging rebuke to him and such as he and stand by our friends."

Mr. Ashbrook's labor record, it will be remembered, was investigated and reported upon by Mr. W. J. Winans, the state legislative representative of the Brotherhood of Railroad Trainmen. After enumerating the various labor measures before the last session of the Legislature, Mr. Winans thus speaks of Mr. Ashbrook's course in supporting them:

"I can truthfully say that he was very anxious to support all labor measures for which he is certainly entitled to the support of the labor vote of your district, and I trust that every member of organized labor will cheerfully use their influence to elect the Honorable William A. Ashbrook to Congress, with such an overwhelming vote that he will realize that the laboring people recognize him to be their friend, and that they appreciate his good work during his term in the Ohio Legislature."

No Packed Congress Wanted.

Will the next Congress be a packed one, is the query of a leading politician. It certainly will be unless the Democrats turn out and elect men that will represent them. We had a packed Congress last session, and trusts would have had things absolutely their own way but for the backing President Roosevelt got from the Democratic minority.

Representatives of the people should be elected. The 17th district is a Democratic district and as such has been wonderfully misrepresented in the last Congress. A vote for Ashbrook is a vote for proper representation, according to measures advocated by Democrats, which are nearly identical with reforms advocated by President Roosevelt as against a large majority of his own party.

Smyser In Town

(Holmes Co. Farmer.)

Congressman Smyser of Wooster was in town a few hours Tuesday, but the pestiferous postoffice applicants made it so unpleasant for him that he was glad to get away without having an opportunity to talk to anybody else. His coming reminds us of the campaign of 1890, when he was the financial man for the corporations and used to come slipping down the valley with his little gripsack and was met by the boys who got their share of the swag. Those were great days and the corporations were milked a plenty. He is still backed by the same influences and his work in Congress shows plainly that he is against the common people and in favor of the trusts and corporations. They need him in their business.

COMING HOME.

Funston Will Return From Cuba With Taft—Cubans Dislike Him.

Havana, Oct. 11.—Secretary Taft made the announcement that he and General Funston will leave Saturday for the United States on the battleship Louisiana. With them will go Assistant Secretary of State Bacon, and the affairs of Cuba will be left in the hands of Governor Magoon and General Bell.

Governor Taft's confidence in General Bell's ability to carry out the program of regeneration resulted in the decision to continue him in the island. Many Cubans of the faction to which Mendez Capote and others who organized the Moderate party belong were outspoken against General Funston, alleging that he had deserted them in their war against Spain. Governor Taft did not take cognizance of this bitterness, as he knows that General Funston at that time was ill, and had the consent to return of General Garcia and other leaders.

Twenty-five marines have been ordered to proceed to Sancti Spiritus and Trinidad. At the latter place they will settle the friction between ex-rebels and ex-militiamen who have recently been disarmed. The trouble was caused when Colonel Glynn of the militia, who is also collector of customs, rearmed the militia after the departure of the disarmament commissioners.

HOW IS THIS?

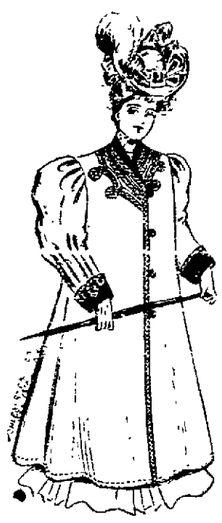

Editor Advocate: When the Soldiers and Sailors Memorial Hall was built by the tax-payers of Newark and Licking County it was fitted and furnished for the use of soldier organizations only, and not for rent. The notice in your Monday's edition that Martin Luther Smyser and Walter A. Irvin would address the Rural Free Delivery Carriers Union meeting looks as though the Grand Army Hall has been donated for a political meeting. Possibly there was a misunderstanding by the Honorable Board of Trustees of the Memorial building and perhaps they have exceeded their authority or set a bad precedent. Remarks have been made by many citizens as well as soldiers and an investigation should be made.

GIRL IS SNUBBED BY HER NEIGHBORS

NOW THINKS SHE MADE MISTAKE IN USING RIGHT NAME IN ADVERTISEMENT.

She Has Not Weakened and Still Yearns for Luxury—Talks With the Reporters.

Chicago, Oct. 11—Elizabeth Magie, the beautiful girl who in an advertisement offered herself for sale, a white slave, to the highest bidder began paying the price of sensationalism when she found herself ostracized by the people in her residence district.

Miss Magie says:

"Perhaps I made a mistake in my method. I fear I am not rightly understood. I alone must be the judge of who is the highest bidder. One may offer a smaller sum than another, yet if he purchases my talents I would consider him a higher bidder than one—one, ah, was more personal, your understand. Last night when I arrived at home I found half a dozen newspaper reporters awaiting me. The rest of the world has passed me up—is that the term? Passed me up.

"I wish now I had not used my own name. An assumed name would have accomplished the same purpose. It is the price of mistaken honesty."

Her eyes beamed, she shook her curls about her neck and smiled wondrously. Apparently she had no fear of her future now that she has changed her standard of life and her code of ethics. She rocked back and forth in calmness.

Not handsome, but magnetic, describes her. Her age is left a matter of doubt.

"I am going to be a white slave," she said. "I'm going to sell myself to the man who will pay the most for me.

"I don't suppose I shall be respected by the conventional, but I have done with the system. The man who buys me will get a poor cook but a good entertainer.

"All I want of him is comfort, decent clothes to wear, a life free of the grinding throes of poverty. I want to be warm in winter and cool in summer.

"I want silk lingerie and a few pretty things all for my own. I want a few jewels—not many. I'm a rebel against the system, a social anarchist. I hate cotton underclothes. It's wearing Oxford shoes when cold weather comes.

"My father was James K. Magie. He's dead, the dear man. My father was state printer in this state years ago. That was before we moved to Washington. I opened a typewriting office there for a time. It did not pay enough.

"I became an elocutionist by long study and paying money for lessons. Soon I discovered that there was only one royal road to success with managers. I didn't want to be a white slave then. I was a stickler for the code, and it kept me broke."

Miss Magie has received many letters but refused to show or discuss any of them.

The school yard prizes were given to those grounds showing most improvement over what they had been, and will be given to the school, or janitors, or divided between them. The children of Mill street worked hard on their yard, and some even brought old table-knives to dig out the weeds. Special mention was given the high school and North Third street lawns—but they have always been in good condition.

NAMES ON CIGAR BOXES.

Of every hundred men who profess anxiety for the quality of their cigars owing to the Cuban rebellion, scarcely one could, if put to it, interpret the meaning of the various words which are stamped on the end and sides of a cigar box. These are not mere fancy names, but terms actually descriptive of the cigar.

On the lid is the name of the cigar, as Pedro Murias [illegible] la y Villa. The front of the box describes the shape and size, as Conchas, Reina, Regalia, which state the shape, and Perfecto, Infantes, Princess, which signify the size. These may be combined, as Conchas Especiales, Conchas Finos to state both shape and size.

At the back of the box, where the lid turns over, is stamped the quality of the cigar—Superior, Fina, Fina, Flor, Superior and [illegible] being the term in the descending scale. The color of the cigar is declared on the right handed side or end of the box. Claro signifies the light colored, Colorado Claro rather dark, Colorado dark, Colorodao Madaro darker, Maduro very dark, Oscuro extremely dark, Negro darkest.—London Chronicle.

HARRY RADCLIFFE SELLS 30 ACRES

LAND WILL BE FACTORY SITE FOR BENNINGTON TYPEWRITER COMPANY.

Former Newark Boy Makes a Good Deal in Columbus Real Estate This Week.

Thirty acres of Columbus land owned by Harry P. Radcliffe, formerly of Newark, were sold Monday to the Bennington Typewriter Co., which contemplates the erection of a factory in the near future. The transfer papers state the consideration as being $1 and other considerations, but it is known that the purchase price was approximately $50,000

The land lies along both sides of the Norfolk and Western railroad, south of Franklin park. The purchase was made for the company by W. H. Bennington, president, and F. J. Norris, secretary

The typewriter company owns patents on a new typewriter, which it intends to manufacture in the plant which is to be erected on the site. The building will be 75 by 250 feet, four stories high, will be constructed of brick and will cost in the neighborhood of $30,000.

The sale is an important one in that it takes up all available land from Fair avenue to Bryden road east of the end of the Oak street car line to Alum creek. Land for residence property between these points north and south, can now be obtained only by going east of Alum creek.

Harry Radcliffe is now president of the Terry Engraving company, Columbus, and has large property interests. He began his career as a bell boy in the Warden Hotel here, went to Columbus and opened a small cigar store and was soon on the road to success. A year or two ago after he had well established himself in business and had demonstrated that he was abundantly able to paddle his own canoe, he was given a considerable sum of money through the will of a relative in the west. But it didn't take that bequest to insure the business success of Harry Radcliffe.

SMUGGLED CHINKS.

Federal Officers Find Them After a Diligent Search.

Providence, R. I., Oct. 11.—The 18 Chinese arrested after the capture by the United States immigration authorities of the schooner yacht Frolic, for which revenue cutters have been been searching along the New England coast for the last two weeks, were held by United States Commissioner Cross in $1,000 bail each for examination next Wednesday. All declared they were in the United States before. The declaration contradicted a statement alleged to have been made by one of the men arrested for complicity in the smuggling operations, that the Chinese brought by the Frolic from Newfoundland came to that country direct from China.

Washington, Oct. 11. — Hazing has disappeared at the United States military academy, according to the annual report of the superintendent, Brigadier A. J. Mills. The report says: "Hazing is entirely absent and the spirit which in former years promoted it has in a great measure disappeared The attitude of all the upper classes toward the fourth class is good generally, and the members of the first class in particular have shown due appreciation of their responsibilities in maintaining proper relations for new cadets. First classmen exclusively were detailed to act hereafter as instructors of cadets during their preliminary training. The good effects of this policy were evident."

FOUR O-P PLAYERS ARE BENEDICTS

Cupid has invaded the Ohio and Pennsylvania league since the close of the season, and all ready four players have either been married or will be soon. Those players who have been hard hit are Rudy Rudolph formerly of New Castle and Zanesville, Third Baseman Ted Strood of Akron, Pitcher Harry Drake of New Castle, and Manager Ferd Drumm of Marion.

Rudolph was married a few days ago to Miss Susanne Kunnert. Ted Strood will be married today in Akron to Elizabeth Jenkins. Harry Drake, of New Castle, was married a few days ago but in writing to his friends of the event, he failed to mention his lady's name. As was announced in the Advocate a few days ago, Ferd Drumm will be married soon to Miss Gertrude Lewis. It is rumored that several other players will kneel before the altar soon.

HOGAN WILL STAY IN YOUNGSTOWN

Youngstown Chief Comes to Agreement With the McDonalds, Owners of Champs Team.

Word received from Youngstown this morning announces that Marty Hogan will remain in that city for next season, the agreement having been reached between the McDonalds and Manager Hogan some time Wednesday.

Hogan has been slated for the management of the Nashville, Tenn., team in the Southern league and it was even stated that he would draft a number of O. P. league players for his Southern team. This latest announcement however, will put a quietus on all the wild rumors afloat and O. P. managers can spend the winter concocting schemes whereby the pennant for 1907 can be kept away from the Youngstown chief.

It has long since been decided to retain a team in Youngstown for next season. So these two matters have been settled Now let the Newark people subscribe for the $1,000 worth of stock which remains to insure a ball team for Newark for next season; elect a competent manager and have two more vexing questions settled.

NO ROLLER POLO IN MOGUL TOWN

Manager of Rink There Says Zanesville People Won't Give Floor to Polo Team.

Zanesville, O., Oct. 11—This city will not have a polo team in the present proposed league this winter. At least Manager Albert Geis of the Zanesville rink will not put in a team He says that the Zanesville people are too fond of skating to give up the floor for even a short time in the evening to a polo team. He says: "As soon as the interest in roller skating has somewhat abated, we may organize a polo team, but not this year" The Zanesville bugs had hoped that a team would be organized this season and Manager Geis' announcement has caused sore disappointment among them.

DENISON PRACTICE IS NEGLECTED

Class Rush This Afternoon Has Transferred Interest in Saturday's Game.

Reports from Granville are to the effect that football practice has been somewhat overlooked this week because of the clash that comes off this afternoon between the two under classes Some seven Sophs are members of the football squad and they have been drafted to fight against the Freshies.

However, Denison will be in Columbus Saturday afternoon to make a fight against the Medics, who, after a signal practice yesterday of 45 minutes, were let out to go up and see the Ohio State game.

It is probable that Van Voorhis of Denison, and Durfee of Williams will act as officials for Saturday's game at Recreation park.

"I don't care if you get beaten 49 to 0 as long as you show that you did the best you could," said Dr. Edgerton to his Medics yesterday. "But cheating Well it must stop, stop, stop That's all."

Although the Ohio Valley Base Ball Union dissolved last spring after an unsuccessful existence a new base ball trade combine or trust has just been formed, called the Northwestern Base Ball company. The plan is to put this British industry, "on a stable basis and eliminate rate cutting."

Charles Arthur was fatally shot at Hoffman, I. T., by Dr. O. I. Wright, a physician. Result of alleged attention of Arthur to Wright's wife.

ONE APIECE.

Nationals Win Easily In Second Game World Championship Series.

Chicago, Oct. 11.—Honors are even between the White Sox and Cubs in the championship series through the victory easily won by the Cubs Wednesday.

The Nationals started the trouble in the second inning. Captain Chance received an ovation as he stepped to the plate, but failed to hit three good ones. Then Steinfeldt sent a scorching single to left. Tinker laid down a perfect bunt and beat it to first. Steinfeldt reaching second. Evers rolled an easy one down to Isbell, who in his haste to make a double play tossed the ball into left field. Steinfeldt scored, Tinker took third and Evers perched on second. White deliberately allowed Kling to walk, but Reulbach sacrificed Tinker home, and Evers scored a moment later on Hofman's safe drive. Kling, however, was out at the plate. The half closed with three runs over the plate. The next run for the Nationals came when Chance was safe on a fielder's choice. He stole second and went to third when Isbell failed to hold Sullivan's bad throw. He scored when Steinfeldt rapped out his second clean single.

The Americans' lone tally came in the fifth when Dougherty was safe on fielder's choice. He took second on a wild pitch and scored when Tannehill's grounder went past Tinker, who was confused by the baserunner. The White Sox never even threatened again except when Jones reached second on his own hit and went to third on an out. Donohue flew to left and Jones was caught yards from the plate by Scheckard's perfect throw.

In the sixth two singles, a double steal by Tinker and Evers and Sullivan's wild throw to third, the ball rolling into the crowd, let Tinker across the plate. In the eighth two more tallies were made off Chance's single, a sacrifice, Chance's pretty steal to third and Tinker's single. Tinker stole second, went to third on Evers' out and came home on a wild pitch.

New Race Grounds.

Louisville, Ky., Oct. 11. — Matt J. Wynn, secretary of the American Turf association, announced that Louisville, Cincinnati and Pittsburg capital would build a racing plant opposite Steubenville, O., to cost $250,000. The track will be 40 miles from Pittsburg, according to Mr. Wynn, and there will be a 45-minute train service from Pittsburg to the track. The plant will be completed in time for a meeting next summer.

POLO MEETING WAS POSPONED

NEWARK'S POLO MANAGER TED D. DAKEN, HAS ARRIVED IN THE CITY.

Says Outlook Here is Good and Believes a Good Team Will Make Polo Popular.

The roller polo meeting which was scheduled for Coshocton Wednesday night was not held. It has been postponed until next week. It was thought best to postpone the meeting night in order to give a little more time to agitate the matter.

Newark's manager, Ted D. Daken, of Kalamazoo, Mich., arrived in the city Wednesday afternoon, and is looking over the situation. He is well pleased with the outlook and thinks that a paying team can be put in in Newark.

In a conversation with the Advocate man Mr. Daken stated that it was his opinion that the fact that the game was almost unknown in the city was the right condition of affairs. When this is the situation and a good polo team is put in, the people will be able to realize what an exciting and fascinating game it is.

Several people who have lived in towns where polo has been played, have remarked that if a good polo team is organized for Newark, that the rink has not yet been built which will accommodate the crowds.

"The game is one which becomes popular with the women from the fact that it is played indoors and that it is simple and easily understood. In spite of the simplicity of the game, it requires great skill and endurance to play it and those who follow the game are athletes of the finest type. It should not be understood by this that it is a rough and tumble game, like football but it is fast from the start to the finish, and the players must be well developed physically to keep up the pace and to prevent themselves from possible injury.

The only known survivor of the naval battle of Navarino, which took place in 1827, is still living near Rhyde, namely, John Stainer, who has just passed his 100th birthday Stainer was midshipman's steward on board the Talbot.

THIS COLD SNAP GOOD FOR HUNTERS

DONT'S FOR HUNTERS.

Don't shoot pheasants until November 10, 1908.

Don't bag more than 25 ducks, 18 quail, dove, woodcock, geese, or snipe.

Don't shoot quail, dove or partridge except on the wing.

Don't use anything but a row boat in hunting ducks. No sink box or sneak boat goes with the game warden.

Don't hunt on Sunday or use a gun larger than 10 guage for duck or geese.

Don't hunt duck or geese on Sunday or Monday, nor after sunset or before daylight.

Don't fail to get permission to hunt on another's land.

Don't fail to understand the game laws before you shoulder your gun. Write the state game warden for a copy of the laws.

Don't blow down the muzzle of a loaded gun.

Have you a friend who enjoys a day's hunt on the water or afield? If your answer is yes, did you notice the broad smile of satisfaction on his face Thursday when you met him on the street?

Probably you saw nothing about the sudden chilly weather to be happy over but your hunter friend did He was thinking of the ducks which would soon settle on Buckeye Lake and incidentally he was thinking of the sport he would have in hunting them with his trusty gun.

Hunting thus far this season has not been the best. The squirrels failed to furnish the usual sport on account of the scarcity. This was caused experts say, by the fact that food for the little animals was more plentiful than usual this season and they were satisfied to remain in their dens. Seasons when food is scarce the little rodent are compelled to take chances and get out to forage for a living and it is then that the huntsmen return home with well filled bags.

But the duck season is the season that brings delight to the hearts of the sportsman. The season begins September 1, but there is not much doing until a little cold weather sets in. Then the birds are driven down from the north and find feeding grounds in Ohio. Buckeye Lake has become a famous retreat for the feathered game and they are found in large numbers. This popular summer resort is famous all over the state as a shooting ground and the duck hunters have already commenced to flock to the shores of the reservoir.

Bags of anywhere from 10 to 35 and 40 are being reported from Buckeye Lake. In spite of the law which prohibits the killing of more than 25 birds an one day, it is claimed that a Columbus man bagged 40 last Saturday on the Lake.

INDIGESTION

Makes Life Miserable.

When you are suffering from indigestion or any of its attending ills, such as rheumatism, heartburn, bloating, headache, nervousness, short of breath, catarrh, sour stomach, backache, kidney disease, in fact, 95 per cent of all human ills are caused directly from indigestion, it makes life miserable to yourself and everyone around.

Dr. Jackson's Digestive and Liver Powders.

Are guaranteed to cure any case of indigestion. Why? Because they are put up in powder form and contain every ingredient needed for the weak digestive organs in proper proportions, being in powder form they dissolve as soon as they reach the stomach and give instant relief. In order to have good health you must have good blood and in order to have good blood you must eat good nutritious food (as no medicine will make blood) the food must be properly digested and not allowed to ferment in the stomach and form gases. Dr. Jackson's Digestive and Liver Powders digest or dissolve the food quickly, and the food is converted into good, rich, red blood, relieves you of the bloating and tired feeling, stops headache and nervousness, and all other diseases caused by indigestion. The secret of our remedy is—that we conquer the cause in the start and go directly to the seat of the trouble and give instant relief, and effect a prompt and permanent cure

Grateful Praise.

F. Edward Singuagle, work C. & M. Y. Ry. residence, Mead street, Zanesville, suffered over two years from backache, headache, and constipation, but after using Dr. Jackson's Blood Purifier and Nerve Tonic with Digestive and Liver Powders, the relief was something wonderful, and his advice to all sufferers of indigestion is to try the Jackson Remedies.

PATROL BOXES NOW BEING LOCATED

Chief Sheridan Out Wednesday Afternoon With 'Phone Representative Placing Boxes.

Chief of Police Sheridan was out Wednesday afternoon with representatives of the Bell Telephone company locating the patrol boxes for the new police alarm system to be installed with the patrol wagon, etc. The pilgrimage was interrupted by the severe snow storm which hit the city a hard blow during the late afternoon. The chief was willing to postpone the trip for the afternoon, but was too modest to suggest such a thing, but heartily approved of the plan when it was suggested by other members of the party.

The police patrol station is slated for completion before the first of next month, and it is planned to have the boxes all erected and the switchboard in when the new station is ready for occupancy. The extra patrolmen and drivers will then be appointed and the new police department will be in better shape than ever to give protection to the residents of the city.

Waiting doesn't pay.
If you neglect the aching back,
Urinary troubles, diabetes, surely follow.
Doan's Kidney Pills relieve backache,
Cure every kidney ill.
Newark citizens endorse them.

E. S. Cramer, proprietor of a livery and boarding stable at 59 W. Main St., and living at 95 Eddy St., Newark, O., says: "I endured backache for a long time before I knew that it originated from the kidneys. I felt well in every other way but my back was a continual misery to me. There was dull aching in the loins extending around to the left side. If I remained in one position for any length of time and then attempted to move quickly sharp shooting pains would strike me, sometimes in one place and sometimes in another. I tried liniments and used several remedies with no effect. Hearing at length of Doan's Kidney Pills I got a box at Crayton's drug store. It is really remarkable how quickly I found relief. The remedy seemed to attack the cause of my trouble and in time it so eradicated every sign and symptom of it that for the eighteen months since I used Doan's Kidney Pills I have had no return of my trouble."

STATE NEWS

Gas Exploded.

Columbus, O., Oct. 11.—A gas explosion wrecked the flat at 41 West Broad street. Otis Kilbourne, natural gas inspector, and Patrolmen Mark T. Murray, Thomas Casey and Upton G. Swaney were badly burned.

Tetlow on the Stand.

Columbus, O., Oct. 11.—The investigation of the charges against J. W. Jones, superintendent of the state school for deaf, was begun by H. H. McFadden of Steubenville and R. H. Plaut of Columbus, a special committee appointed by the state board of charities at the request of the governor J. B. Tetlow, former assistant engineer of the institution, who was the author of the charges, was the first witness. He said that Superintendent Jones had carried passkeys to the rooms of the women employes of the institution and that he had shown favoritism to certain women employes. Tetlow accused the superintendent of extravagance and of making gifts at the expense of the state to friends and relatives. Tetlow gave the names of several persons from whom his information was obtained. Captain J. W. Ainsworth, storekeeper, testified that he had received certain bills for which he had no invoice, and that he sent them to the steward unsigned.

Forfeited Franchise.

Columbus, O., Oct. 11.—Because of the failure of the Columbus, Delaware & Marion Traction company to macadamize Mock road from its intersection with Summit street to its intersection with North High street the Franklin county commissioners officially declared the company's franchise forfeited and revoked, and notified the company to at once remove its tracks from the above highway. Prosecuting Attorney Webber was also instructed to bring ouster proceedings against it.

Fire at West Salem.

Wooster, O., Oct. 11.—Five buildings were destroyed by fire at West Salem. A heavy rain fell and aided in staying the flames or the village firehouse and townhall would have burned. Five structures were destroyed, including the office of the Salem Reporter, business block and residence of J. J. Shank, Hine's pool room, Gishorn's law office and two stables. The fire doubtless was of incendiary origin. The loss is estimated at $10,000.

Joke's Sad Sequel.

Milford, O., Oct. 11.—Miss Goldie Raper, 18, swallowed an ounce of carbolic acid at her home in Felicity, O., and died several minutes afterward. Several days ago she found a letter in her sweetheart's coat addressed "My Dearest Husband." The youth could not convince her that he was not married even when one of her own friends confessed that she had written the letter for a joke, and the girl, despondent, took her own life.

Alleged Plumbers' Trust.

Lima, O., Oct. 11.—Sensational returns were made by the grand jury here in the indictment of 11 plumbing concerns on charges of "conspiracy against trade." Several prominent men were included among the individual true bills returned, which are based on the Valentine law and similar in every respect to the so-called bridge trust cases, in which convictions have already been made.

Broker Suspended.

Chicago, Oct. 11.—Charles H Smith was suspended from the board of trade for non-payment of dues. Smith was at one time a leading broker, having acted in the interests of B. P Hutchinson, better known as "Old Hutch." He was at one time actively interested in race horses, being the owner of the famous Lieutenant Gibson and other well known animals.

Woman Fatally Shot.

Glouster, O., Oct 11. — Mrs. Alexander Kovats was shot and fatally wounded by John Popeley at Hollister, two miles west of here. The trouble originated, it is charged, when Popeley called at Mrs Kovat's, where his wife, from whom he had parted some weeks ago, was living, and started to abuse his wife. Popeley disappeared.

Congressional Nomination.

Springfield, O., Oct. 11.—It took the Democrats of the Seventh congressional district, composed of the counties of Clark, Madison, Miami, Fayette and Pickaway, just seven minutes to nominate a candidate for congress. William B. Rodgers, an attorney of Washington C. H. was selected. No resolutions were offered.

Ohioans to Help Erect Schoolhouses

An effort is to be made in Ohio and other states to collect contributions from the school children for the purpose of erecting buildings in which to educate the children in the burned district of San Francisco. This plan has been approved by State School Commissioner Jones in a letter sent to the superintendents of schools in the various districts, including Prof J. D. Simkins of Newark.

It has been suggested that such contributions be taken as a Thanksgiving offering. The plan is in harmony with a movement started in San Francisco for the relief of the city's educational department. It should appeal to people generally, and a liberal sum should be raised even by small amounts through the medium of the public schools for the erection of the Ohio buildings.

Plague has appeared at Osaka, Japan and cholera at Shanghai, China.

LET US TALK ABOUT WEATHER

OLDEST INHABITANT SAYS HE NEVER SAW ANYTHING LIKE IT.

Trees Covered With Leaves and Laden With Ripe Fruit Weighed Down by Snow.

Everybody is talking about the weather, so here goes for a few paragraphs.

The oldest inhabitant says he never saw anything like it and many say they never knew of snow to precede a frost in this section. Wednesday's snow storm was the real thing, and it kept up all day. Most of the snow melted as it struck the ground, but when night came the trees covered with leaves and many with ripe fruit were weighed down by a load of snow.

The big trees in the court house pary were particularly beautiful, the sight affording a marked contrast to the spring like appearance of the trees and foliage a few days ago.

Early in the evening the mercury dropped and the below freezing mark was reached.

The earliest snow recorded since the Columbus weather station has been in operation, or since and including 1878, fell October 10, 1906. There was about one-tenth of an inch making the precipitation about .01 inch.

The previous earliest snow was on October 20, 1888.

The temperature was 32 degrees, the lowest with one exception, before and including October 11, in the records of the Columbus station. This exception was October 8, 1889, when the temperature fell to 29 degrees.

The maximum temperature was 41 degrees at 3 p. m. The minimum 33 degrees was at 7 p. m., the close of the official weather day, but 32 was reached at 8 o'clock and it went lower during the night. The highest wind was 36 miles an hour, from the northwest, at 2 p. m.

The sun came out from under cover Thursday and the snow disappeared.

Bucyrus, O., Oct. 11—The county fair was buried beneath a white blanket and the fair closed yesterday. Several farmers came in on sleds.

SQUAW WINTER.

First Arctic Weather of the Season. General Bulletin.

Washington, Oct 11.—The weather bureau announced that a light snowfall doubtless would continue in states along the lower lake region. Snow is falling along the Great Lakes. The western area of high pressure is fast giving way and a fresh disturbance is moving eastward on its rear, the center being north of Montana. The eastern storm passed off New England over the Canadian maritime provinces. Snow or rain is expected near Lake Erie and in the east part of Pennsylvania. There was heavy and killing frost in the Mississippi valley north of Memphis. Light frost also occurred in Oklahoma, eastern and central Tennessee, and heavy frost in northwestern Arkansas.

Record Breaker For Ohio.

Columbus, O., Oct 11.—All weather records for Columbus were broken by snow flurries Wednesday, with a heavy snowfall Wednesday evening. Reports show that the snow squalls were general throughout the state. The snowfall was followed by freezing Wednesday night. The appearance of snow so early was all the more remarkable as there had been no frosts in this vicinity this fall.

New Cold Record.

Norfolk, Neb, Oct 11 — The mercury dropped to 17 above zero, making a new cold record for this point for so early in the fall. It was the coldest October weather in 28 years.

Kentucky Crops Injured.

Lexington, Ky., Oct 11.—Snow fell throughout Kentucky Wednesday and reports received here show that great damage to tobacco crops and late corn resulted.

The Republican state central and executive committees met Wednesday at Columbus. Ten candidates for congress were present.

Being Square With The World

If You Would Give and Get Full Value Here's A Suggestion.

Are you getting full value out of life? And is the world getting full value out of you? In matters of business and in our relations, man to man, we owe it to ourselves and to the world to do our best to make ourselves of full value. Do this and, in turn, you will get full value out of life.

You can't do full justice to anything unless you feel right. And you can't feel right unless you live right. Living right is essential to living right.

Eat the right kind of food and you will not suffer. The right kind of food for you and your family, the weak and the strong, the sick and the well, the grown folks and the little folks, is Malta-Vita, that delicious, crisp, wholewheat food.

A perfect breakfast is impossible without Malta-Vita, and it's just as good three times a day. Being a pure grain product, without any foreign sweetening agent or other adulterative, Malta-Vita is rich in food elements—every nutritious element of the best white wheat and pure barley malt extract—intensely vitalizing.

Try Malta-Vita with cream or fruit. There is no other food "just as good." None that can take its place. And it's always ready to eat. No cooking. No inconvenience. All grocers, now 10 cents.

SUFFRAGE

To be Urged For Women by Ohio Organizations at Next Session of General Assembly.

Marion, O., Oct 11—The Ohio Women's Christian Temperance Union in annual convention here adopted a resolution to co-operate with the Ohio Women's Suffrage Association in obtaining the passage of a law for full suffrage in Ohio Hand in hand with these two organizations will go the Ohio Anti-Saloon League, which will use its influence to give women the right of franchise. The combined forces will seek to have stricken from the election laws the words "white males."

Mrs. Annie E. Clarke of Columbus state president, after eulogizng the late Governor Pattison in her annual address, said in part: "A change of 200,000 votes from the Republican to the Democratic party last fall, in the interest of one man, who was the avowed candidate of the temperance men and women of the state, shook the political machine until its joints rattled, and gave warning to the liquor traffic to cease its attempts to use the executive department of the state to serve their interests."

In future, she said, church people would not cast their votes for the Republican party because it was the Republican party, as has been largely the case in the past, but for the best interest of the home and society. Mrs. Clarke then stated that Ohio would be thoroughly organized for full suffrage and pressure brought to bear on the next General Assembly from every section of the state.

the prosecution was going entirely outside of the case as set forth in the information filed by County Prosecutor David. The authenticity of the evidence was also questioned.

A general answer to these objections was made by Attorney General Ellis, who made his first appearance as an active participant in the prosecution.

L. & N. Indictments.

Nashville, Tenn., Oct. 11.—The federal grand jury returned three separate indictments against the Louisville & Nashville Railroad company charging violation of the act making it a misdemeanor for a common carrier to "threaten or discriminate against any employe who is in the train service of such common carrier because of having joined a labor organization or corporation" The Order of Railroad Telegraphers, it is understood, furnished evidence on which the indictments are based.

Germany cannot produce the meat necessary to feed her people, excepting at great cost, hence the application of a high tariff on meats was a decided mistake. The British are anticipating an advantage from that mistake, but the Germans can live without meat.

THIEF STOLE WHEAT

Barn of T. R. Jones, North of Newark Entered Wednesday Night and Articles Taken.

Titus R Jones, a well known farmer residing north of the city, was again the victim of thieves, a few last night his barn was entered and fifteen bushels of wheat, a set of harness, almost new, besides numerous other articles were stolen and carried away.

The wheat was in sacks and it was evident that some one called in a wagon sometime during the night and carted the various articles away.

Several years ago Mr. Jones lost a valuable horse and at another time some one stole a suit of clothes from his home He has been the victim of petty thieving at different times for several years

The theft was reported to the local police and a pretty good clew was furnished. Mr. Jones has little hope of catching the thief as he says he has the first time yet to come when he succeeds in catching a thief.

In the "Life of the Seventh Earl of Shaftsbury," by Edwin Hodder, the following appears in one of the speeches of the subject of the biography: "When Gladstone runs down a steep place his immense majority, like the pigs in scripture, but hoping for a better issue, will go with him roaring in grunts of exultation."
